4.2 Website Design

After learning about key features of a company website, decide what your company website should look like. Use the chart below to map out your website and assign tasks.

Company Name: _____

Purpose of Website: _____

Webpage e.g. "Products"	Content List all products available and include picture, short description, and price	Team Members e.g. "CMO"

Submit all webpage content to CEO by (Date): _____
CEO will then compile the website and make link available to share before sales.
