Dear Parent/Guardian,

Congratulations! Your child will soon embark on an exciting, hands-on learning experience through BizWorld+. This real-world simulation empowers students to work together to design, manufacture, market, and sell a product—giving them a firsthand look at what it takes to start and run a business.

Throughout the program, students will form companies, incorporate them with the state, raise capital by selling shares (stock), and manage their company's finances using BizBucks—our classroom currency. It's a dynamic opportunity for your child to build critical 21st-century skills like collaboration, creative problem-solving, communication, and financial literacy.

During BizWorld+, your child will:

- Raise funds by selling company stock and/or taking out a bank loan
- Design and manufacture product(s) designed in collaboration with other students
- Market their business and sell products at a fun Sales Bazaar
- Manage budgets and track company finances
- Develop leadership, teamwork, and decision-making skills

Thank you for being part of this exciting entrepreneurial journey with us!

Sincerely,

**The BizWorld.org Team**
