

# 10.1 Production Plan

*Directions:* Lead by the VP of Production, come up with an efficient production plan for your company.

## Company Info

Company Name: \_\_\_\_\_

VP of Production: \_\_\_\_\_

Product(s) being sold: \_\_\_\_\_

## Production Method

List the raw materials needed to make your products:

Explain which production method (assembly line, job shop, or a combination of both) your company will use and why

## Production Duties

Fill out the chart below:

If using **job shop**, identify the type of product and how many of each product each team member is responsible for making.

If using **assembly line**, list which task in the assembly line each team member is responsible for.

| Job Position  | Name | Production Assignment |
|---------------|------|-----------------------|
| CEO           |      |                       |
| VP Finance    |      |                       |
| VP Design     |      |                       |
| VP Production |      |                       |
| VP Marketing  |      |                       |
| VP Sales      |      |                       |
